

IPTOR ERP

EXTENDED PROFILE

OVERVIEW

Iptor produces two ERP solutions; ERP for distribution and ERP for publishing. Both are suitable for businesses of any size.

The distribution-based software is aimed at E-commerce distributors that want to optimize their operations while improving their visibility on their client’s behaviors, and relationships. It is suitable for companies aiming to move towards lean and agile methodologies. Similarly, ERP for Publishing is geared towards distributors of content and is ideal for publishers who want to better understand their clients and their patterns of behavior.

Both solutions are made of a set of core functionalities, which include order processing, billing, returns management, inventory management, accounting, and shipping. Industry specific modules can then be added on as required. A key feature of the distribution package is the inventory and distribution module, which allows real-time optimization of the goods handling process. ERP for Publishing comes equipped with dedicated royalties, rights, permissions and contracts handling tools that allow users to proactively manage all of the financial aspects associated with publishing.

Iptor ERP is a cloud-based solution, available via web browsers on both desktop and mobile devices. The firm operates on a SaaS and IaaS basis.

SOFTWARE SCREENSHOTS

The screenshot displays the iptor software interface. The top navigation bar includes the iptor logo, a search bar, and the user name "Tom Smith". Below the navigation bar, the main content area is titled "Work with sales orders > Fast entry".

On the left side, there is a sidebar with a search bar containing "sales orders" and a list of links: "Work with held sales orders", "Work with sales orders", "Re-plan sales orders", and "Print open sales orders". Below this is a "Quick Links" section with "Most recent", "Print G/L transactions", "Work with demand plans", and "Work with items".

The main content area shows a form for "Work with sales orders > Fast entry". The form includes fields for Customer (149050), Charter Finance Limited, Order val (3,266.40), Order number (10447), Credit limit (42000), and Balance (667,606.07).

Below the form is a table with the following columns: Line, Item, Quantity, Unit, Dsp dt, Whs, and Item description. The table contains three rows of data:

Line	Item	Quantity	Unit	Dsp dt	Whs	Item description
10	D112500	5	EACH	1/9/2008	NDC	Wash m/c Model XBE 800rpm BE
20	D315250	3	EACH	1/9/2008	NDC	Cooker 4-ring fan-oven 31N WHT
30	D129370	5	EACH	1/9/2008	NDC	Tumble drier Model S34 2KW WHT

Below the table, there is a row with the following data: 12345/GREY/XOL, 123, *, 4/26/2017, NDC. This row is highlighted in blue.

At the bottom of the screen, there is a row of buttons: OK, Close order, Smart order entry, Addresses, Header, Line entry, Display Reporting Curr, Generate item, Schedule, and Item crossreference.
